Commissioner for Patents

Attorney Docket: 16571-1US

REMARKS

The Examiner determined that the application contains two inventions, namely Group 1, claims 1 to 14 to a computerized television apparatus with a high resolution screen and Group 2, claims 15-23 to a fast boot-up computing device for a computerized television apparatus.

Applicants hereby elect, without traverse, the invention of Group 2, namely claims 15-23 to be examined. Applicants hereby cancel the claims of Group 1 and reserve the right to file a divisional application for these claims.

Claims 21-22-23 were amended to correct two typographical errors. The word "an" was replaced by the word "a" and a space was inserted between "(102)" and "has" to read "(102) has".

Examination on the merits is respectfully requested. It is believed that claims 15-23 are allowable over the prior art, and a Notice of Allowance is earnestly solicited.

In the event that there are any questions concerning this response, or the application in general, the Examiner is respectfully requested to telephone the undersigned so that prosecution of the application may be expedited.

Respectfully submitted,
André DUSSAULT et al.
